

Day 34 – AI Conversation Storage & Logging

Objective

To design **persistent storage for AI conversations**, critical for audits and analytics.

Tasks & Learning Scope

1. **Conversation Data Modeling**
 - Call sessions
 - Questions & answers
 - Transcripts
 - Timestamps
 2. **Database Models**
 - AIInterviewSession
 - AIQuestion
 - AIAnswer
 - CallLog
 3. **Transcript Storage**
 - Voice-to-text outputs
 - Structured JSON format
 4. **Audit Logs**
 - Who triggered the AI call
 - When and why
-

Deliverables

AI conversation DB models

Transcript storage system

Call logs

Learning Outcome

- Intern designs audit-ready systems
- Understands compliance needs
