

Day 36 – AI Screening Question Engine

Objective

To create a **dynamic AI-driven question flow** instead of static scripts.

Tasks & Learning Scope

1. **Question Categories**
 - Introduction
 - Experience
 - Skills
 - Availability
 - Salary
 2. **Dynamic Flow Logic**
 - Conditional branching
 - Follow-up questions
 - Role-based question sets
 3. **State Management**
 - Current question index
 - Response dependency
 4. **Storage**
 - Question templates
 - Question-job mapping
-

Deliverables

Dynamic question engine
AI flow manager
Configurable question sets

Learning Outcome

- Intern builds conversational systems
- Understands adaptive logic
