

Debugging Report & Deliverables

Prepared by RAJKUMAR PR

1. Solved Debugging Problems Summary

Bug ID	Component	Issue Description	Root Cause	Status
BUG-01	Routing / Views	404 Not Found on Candidate Ranking Endpoint	URL mismatch (/candidate-rankings/ instead of /jobs/<id>/ranking-report/) and signature argument mismatch (pk vs job_id).	Resolved
BUG-02	Database / ORM	Concurrency Deadlock on SaaS Subscription Upgrades	Multiple concurrent webhook events updating UserSubscription without row-level locks.	Resolved
BUG-03	Authentication	Stale User Role Claims in JWT Token	Role mutations in PostgreSQL were not reflected in stateless 15-minute access tokens.	Resolved
BUG-04	Scoring Engine	Unhandled TypeError: NoneType on Incomplete Profiles	Arithmetic calculations on null/missing ATS match scores or uncompleted AI interview scores.	Resolved
BUG-05	Celery Worker	Memory Leak in Resume PDF Parser	Unclosed PDF file streams and uncollected image buffers causing OOM worker crashes.	Resolved
BUG-06	Database Queries	Severe Latency (>2,800 ms) on Candidate Listings	N+1 query problem fetching user profiles and interview sessions in iterative loops.	Resolved
